ROSES

CLIMBING ROSE, BLAZE
New Hardy Everblooming Scarlet Climbing Rose
For full description and price see page 14

Plant Patent No. 10

To Our Customers and Friends

THIS book of GLENCO GUARANTEED ROSES and general nursery stock is sent to you with our compliments, for your inspection and approval.

GLENCO ROSE BUSHES are all field-grown, **guaranteed No. 1 stock** only, and all are 2-year-old plants. Grown in northern New York in open fields, they will withstand the most severe winters and the heat of the hottest summers.

GLENCO ROSE BUSHES are guaranteed to give perfect satisfaction, to grow and bloom true to name and color. If they are not as represented they will be replaced free of charge, with all transportation charges paid by us. You need have no fear in ordering from this 12-year-old company. We guarantee every item we sell; we do not substitute, neither do we misrepresent.

We do not make up special groups or collections of Roses and offer them at cut prices. You make your own selection, and at the modest prices quoted in this catalog you may make your own choice, be it one Rose or a carload.

Every plant is packed in an individual carton (excepting Standard Roses, shrubs, and similar bulky items). In all cases, the roots are moss-packed and wrapped and the plants are alive and healthy when delivered to you. We prepay all transportation charges on Bush Roses, Climbing Roses, Climbing Hydrangeas, vines, boxwood, dogwood, Glenco fertilizers and other small items, unless otherwise noted.

If you are interested in shrubs, trees, perennials, or any other nursery items that are not listed in this catalog, we shall be glad to have you write us for quotations. We carry a full line and shall be glad to supply you with one plant or a thousand, and will appreciate a trial order.

Suggestions for Planting Roses

Remove the top soil and dig a hole at least 12 inches square and 15 inches deep—larger if the plant is extra large. In the bottom of the hole put a quart or so of bonemeal, a food supply for one season. Cover this food thoroughly with the top soil. Remove the wrapping from the roots of the plant, see that all broken roots are cut off, then spread the roots on the top soil and cover with fine dirt, working it thoroughly around the roots. Gradually fill the hole, making sure that the soil is well packed. When the hole is nearly filled, water freely. After the water soaks in, fill the hole to the level of the soil. The plant should be set so that the bud, or joint, is about 2 inches below the surface. Do not permit plant-food to come in direct contact with the roots.

WINTER CARE. Just before freezing weather, tie the stalks together, and make a pile of soil around the plant 6 to 8 inches high, cone-shaped. When this pile is frozen hard, cover the bed with a mulch of leaves, putting on a few light branches to hold the leaves. When spring comes remove the mulch gradually—not all at one time.

GLENCO GUARANTEED HYBRID TEA ROSES

Countess Vandal (Patented)

HYBRID TEA

The long, tapered bud reminds one of the modern trend of feminine fashions. Bronze and gold emerge from a sheath of green sepals. Slowly the bud unfurls, the reverse of petals being copper, gradually turning to orange-earmine on gold base; the inside is a blend of cream-salmon and blush-pink overlaid with a cast of gold and amber. Later on the petals quill back, giving the effect of a cactus dahlia. Delicately perfumed.

Number 1 plants only, \$2 each

Countess
Vandal
(Patented)

Souvenir (Patent No. 25)

Souvenir. HYBRID TEA

A golden Talisman, and the best of the many yellow variations of that now famous Rose. The bud is yellow, showing deep gold in the center, and the open bloom is glistening buttercup-yellow, little affected by sunshine or rain. Blooms are carried singly on erect stems in continuous succession. Delicately perfumed. The pale green foliage is resistant to diseases.

Number 1 plants only, \$2 each

Mary Hart (Red Talisman)

HYBRID TEA

A garnet-red Talisman without yellow markings—an unprecedented feature in the many Talisman sports—and the color lasts for days without changing. As the bud begins to show color it is blood-red, gradually lightening to a sparkling velvety garnet. It is elegant in form, with a tuft of dark red stamens. The plant is upright, very generous of blooms, and has healthy foliage. Mary Hart Rose is of such high merit that it was granted U.S. Plant Patent No. 8 in February, 1932.

Number 1 plants only, \$2.50 each

Mary Hart (Red Talisman). Patent No. 8

Romance

HYBRID PERNETIANA

The latest improvement on Souvenir de Claudius Pernet, and notable for the absence of the objectionable black heart. The bud has markings of orange on yellow, while the open bloom of good form is of the well-known sunflower yellow of Claudius. A delicate perfume adds to its beauty. The foliage is unusually healthy for the type, and the plant is robust.

Number 1 plants only, \$1.50 each

Romance

Autumn

Autumn

HYBRID PERNETIANA

The coloring of the closed bud is absolutely unique in Rosedom—crown orange, passing to chestnut-burnt sienna, as the Italian master Titian would define it. The open bloom is orange, blended with shades of flesh-pink and salmon. Buds are solitary on long, strong stems. Foliage holly-green and leathery. Continuous bloomer. A splendid cut-flower variety.

Number 1 plants only, \$1.25 each

Dotty

HYBRID TEA

A Rose of rare beauty. The coloring of the bud strongly reminds one of Rev. F. Page-Roberts, while the bronze tint remains in the open bloom. A splendid grower with glossy foliage. Unusually healthy for the type. We list it among the outstanding Roses brought out during the past twelve months. The color, the form of flower, the freedom of bloom, and general good habit, entitle Dotty to a place in every garden.

Number 1 plants only, \$2 each

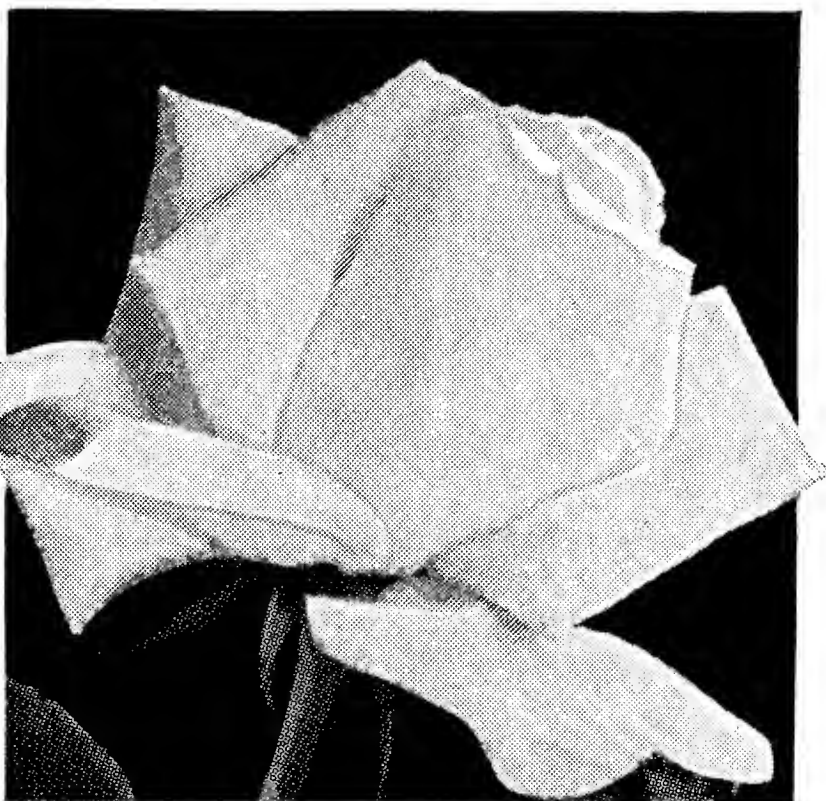

Dotty

Edith Krause

HYBRID TEA

At European Rose shows this year Edith Krause has been unanimously crowned the most beautiful white Rose to date. The large bud, carried on a long, stiff stem, on opening shows a greenish hue which disappears as the first petals unfurl, and the large, open bloom is a shining pure white; fairly fragrant. Very vigorous plant and immense foliage.

Number 1 plants only, \$2 each

Edith Krause

Max Krause

HYBRID TEA

Many Roses have been described as "golden," but none is more truly gold than Max Krause (gold in worthiness as well as color). The long, ovoid bud is borne on a long stem making it fine for cutting and the bloom is large, cup-formed, retaining its beautiful shape and color to the end. It is a good grower and the large foliage has a peculiar texture—corrugated—and is absolutely healthy and disease-resistant.

Number 1 plants only, \$2 each

Max Krause

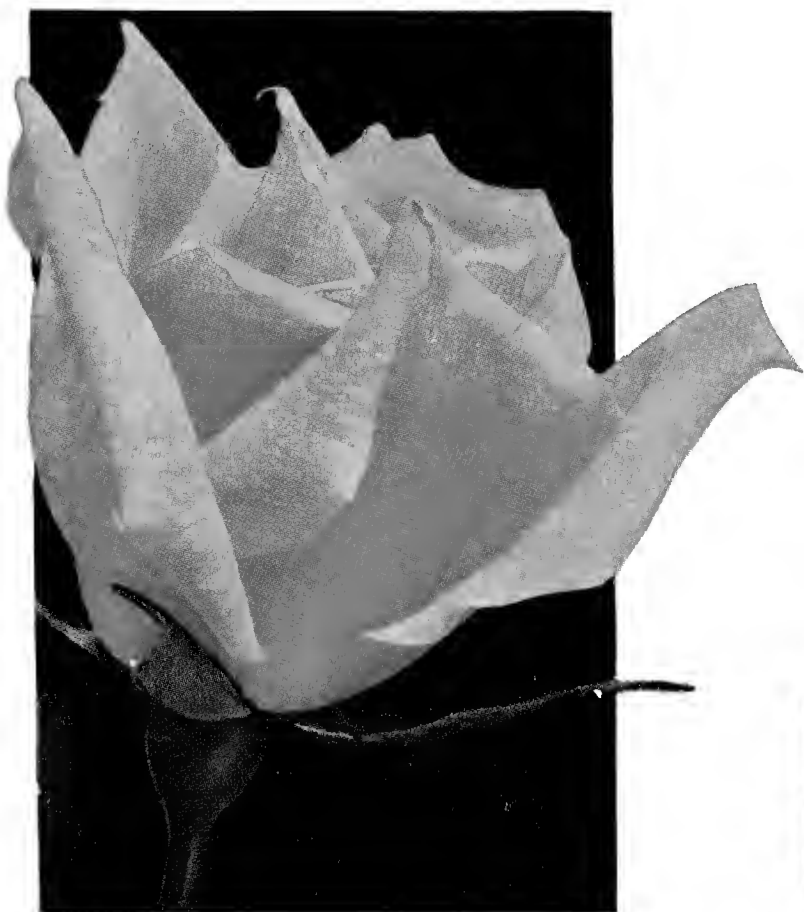

Aroma

Aroma

HYBRID TEA

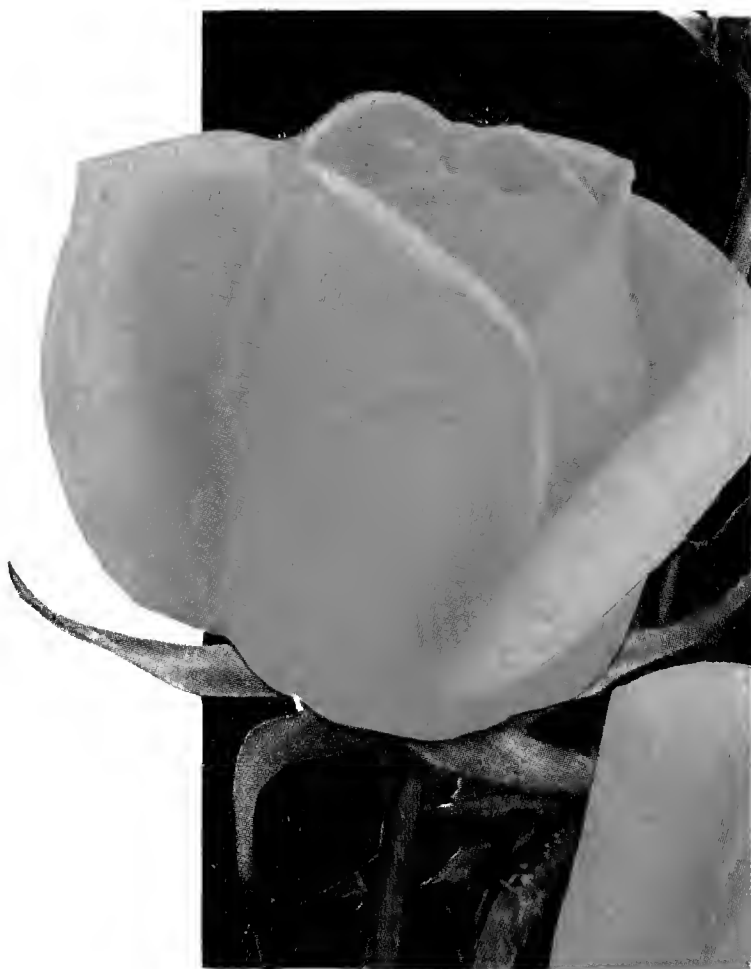

As the name indicates, it has a refined perfume. The crimson bud develops into a well-formed bloom of a scintillating scarlet-red—a rather rare color in Roses. The petals are rounded, perfectly arranged, and stand up, giving the illusion of fullness without objectionable crowding. Plant vigorous, healthy, with dark green foliage.

Number 1 plants only, \$2 each

Sunkist

Glenco Guaranteed Roses are Number One Plants only. We do not handle cheap, bargain-sale stock. You get dollar value for every dollar you pay for our plants

Roslyn

Sunkist

HYBRID TEA

The name was suggested by the ripe "Sunkist" oranges, which are the color of the bud and bloom. A cut-flower variety par excellence as the bloom is borne singly on a long, erect stem, with ample foliage; sweetly scented. The plant is robust, fairly tall-growing, and is seldom bothered by the usual Rose troubles.

Number 1 plants only, \$2 each

Essence

Essence

HYBRID TEA

"Double Etoile de Hollande" would perfectly describe this master Rose. Velvety crimson buds and large blooms cover the bush in continuous succession. The name bespeaks the delightful perfume of Attar of Roses. The plant is vigorous and tall-growing, very hardy for the class. Foliage healthy.

Number 1 plants only, \$1.25 each

Roslyn

HYBRID TEA

A Rose of outstanding beauty and one of the 1929 prize-winners. Flower large and double, borne singly on long, strong stem. Bud orange-yellow, opening to full golden yellow with deep orange on back of petals; extremely lasting; slightly fragrant. Very vigorous; free bloomer.

Number 1 plants only, \$1 each

President Herbert Hoover

HYBRID TEA

An outstanding Rose of great popularity. Large, long-pointed bud; flower large, double, very lasting, medium orange-yellow, borne singly on long, strong stem. This famous Rose is moderately fragrant. Growth very vigorous; free bloomer. Winner of three gold medals.

Number 1 plants only, 75 cts. each

President Herbert Hoover

Olympiad

Good Roses are never cheap, and cheap Roses are never good. Glenco Guaranteed Roses are GOOD, and the price is reasonable, for we believe that quality should always come before profit

Olympiad

HYBRID TEA

One of the prettiest Roses introduced during 1930, and a gold medal winner. Buds fiery orange-red, with gold base, opening to a beautiful cerise-scarlet with gold center. Foliage deep green, extraordinarily healthy.

Number 1 plants only, \$1.25 each

Charles P. Kilham

HYBRID TEA

Flower very large, finely shaped, faintly tea scented, brilliant Oriental orange-red, suffused glowing scarlet, fading to a brilliant Lincoln red in the flower. Growth vigorous, bushy, upright. Another gold medal winner.

Number 1 plants only, 75 cts. each

Charles P. Kilham

Talisman
HYBRID TEA

Another popular Rose, and one that is in great demand by Rose-lovers. Winner of at least four Gold Medals. The medium-sized bud is long-pointed and richly colored and the flower is of good size, double, high-centered, very lasting, extremely fragrant, golden yellow and copper, borne singly on a long stem. Foliage abundant. Vigorous, upright growing plant; free bloomer.

Number 1 plants only,
50 cts. each

Lord Charlemont
HYBRID TEA

Bud medium size, very long-pointed; flower large to very large, double, high-centered, perfectly shaped, unusually lasting, extremely fragrant, clear deep crimson. Growth moderate, bushy; abundant, continuous bloomer all season. In many respects it resembles the older General MacArthur, but we believe it a better Rose.

Number 1 plants only,
75 cts. each

E. G. Hill
HYBRID TEA

Introduced in 1929, and at once became popular in American gardens. For intensity of color it is not surpassed by any other Rose.

A red Rose of lasting beauty. Bud very beautiful; flower immense, very lasting, dazzling scarlet, shaded to a deeper pure red as it develops, but never showing purple, borne on a long stem. Growth vigorous; very free bloomer.

Number 1 plants only,
75 cts. each

Ville de Paris
HYBRID TEA

A Rose from France. An offspring of Souvenir de Claudius Pernet, and vying with that variety for honors.

Type, Souvenir de Claudius Pernet. Bud ovoid; flower large, full, double, globular, sunflower yellow, slightly tinted orange, deeper in center and at base, lasts long in sun, borne on long, strong stem. Growth very vigorous; hardy. Gold Medal winner, 1925.

Number 1 plants only,
75 cts. each

Joanna Hill
HYBRID TEA

Bud very large, long-pointed (like Sunburst); flower large, semi-double, full, very lasting, moderately fragrant, darker yellow than Sunburst, borne singly on long, strong stem. Growth very vigorous, upright; profuse bloomer. Introduced in 1928, has been grown in all parts of the country and proved a desirable yellow Rose.

Number 1 plants only,
75 cts. each

Rev. F. Page-Roberts
HYBRID TEA

Here is a Rose of outstanding beauty that we are glad to offer to the Rose-lover. Bud large, long-pointed; flower large, very double, full, high-centered, lasting, extremely fragrant, yellow, with red shading, tinted buff in the bud stages only, borne several together on long stem. Growth vigorous, bushy; continuous bloomer all season.

Number 1 plants only,
75 cts. each

SUPPLEMENTARY PRICE LIST

SPRING 1933

This price list is supplied with our regular Rose catalog. Due to continued changes in prices on the items mentioned herein, we are obliged to make a separate price list and are unable to include these items in color in our regular catalog. The merchandise listed herein is of the highest quality and carries our usual guarantee. The prices listed herein are the lowest we have quoted in years. The high quality is maintained.

GLENDALE DISTRIBUTING CO.

(Established 1921)

7015 COOPER AVENUE

BROOKLYN, N. Y.

Hadley

HYBRID TEA

Another Gold Medal winner. Flower very large, well formed, double, full, intensely fragrant, rich crimson, varying to deep velvety crimson, borne on stem of average strength and length. Growth vigorous, free; continuous bloomer.

This beautiful Hybrid Tea has been very popular ever since 1914, when it was introduced by A. N. Pierson, Inc.

Number 1 plants only,
75 cts. each

American Beauty

HYBRID TEA

For nearly half a century American Beauty has been known in American gardens, and time has not dimmed the gardener's high regard.

Bud large, globular; flower very large, double, full, cupped, lasting, intensely fragrant, crimson-earmine shaded Neyron rose, borne singly on long, strong stem. Growth vigorous and upright; profuse bloomer.

Number 1 plants only,
50 cts. each

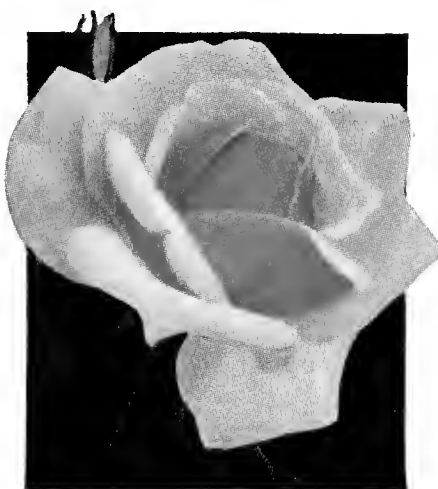

Miss Rowena Thom

HYBRID TEA

Another winner of many Gold Medals during 1927. Bud very large, long-pointed, opens perfectly; flower enormous (6 inches across), full, double (40 to 57 petals), a blending of fiery rose and rose-mauve, together with old-gold, center rose washed with gold, borne on a very long, strong stem. Growth exceptionally vigorous, upright; profuse, continuous bloomer all season.

Number 1 plants only,
75 cts. each

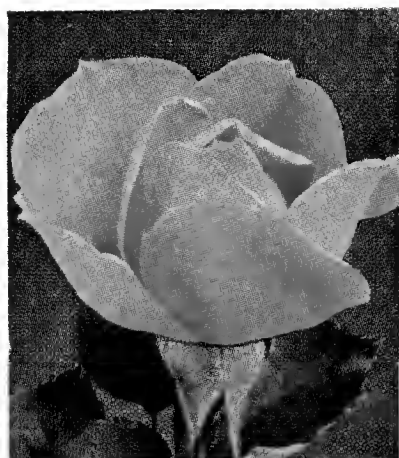

Los Angeles

HYBRID TEA

This Rose was introduced by Howard & Smith in 1916.

Beautifully shaped, fragrant flower of coral-pink toned with coral and shaded with translucent gold at the base of petals, borne singly on long stem. Growth vigorous, upright, spreading; abundant, intermittent bloomer. Extremely popular with everyone for its beauty and lasting fragrance.

Number 1 plants only,
50 cts. each

Angele Pernet

HYBRID TEA

Bud ovoid; flower very large, globular, double, unusually lasting, extremely fragrant, reddish orange shaded chrome-yellow, borne singly on long stem. Growth very vigorous, upright, bushy; profuse, continuous bloomer. Winner of the Bagatelle Gold Medal (France) in 1924, and National Rose Society Gold Medal in 1925.

Number 1 plants only,
50 cts. each

Mme. Jules Bouche

HYBRID TEA

This Rose is recommended where a tinted white is wanted. No garden is complete without this wonderful variety. Bud medium size, long-pointed; flower medium size, double, full, very lasting, moderately fragrant, white, center shaded primrose or pale blush, borne singly on long, strong stem. Growth vigorous, bushy, erect; profuse, continuous bloomer all season.

Number 1 plants only,
50 cts. each

Red Radianc

HYBRID TEA

For almost a score of years Red Radianc has added its beauty to our Rose-gardens. It thrives and blooms in the warm South and cool North.

Sport of Radianc, similar in habit and growth but a clear, even shade of red and of equal merit with its parents as a garden Rose. A very pretty Rose and a profuse bloomer.

Number 1 plants only,
50 cts. each

Pink Radianc

HYBRID TEA

Bud very large, globular; flower very large, double, cupped, extremely lasting, intensely fragrant, cameo pink, deeper toward the center, reverse of petals thulite pink, borne singly and several together on long stem. Foliage abundant. Growth very vigorous (3 to 5 feet), upright; abundant, continuous bloomer. Winner American Rose Society's Silver Medal.

Number 1 plants only,
50 cts. each

Souvenir de Claudius Pernet

HYBRID TEA

An outstanding yellow Rose of great popularity—also a Gold Medal winner. Bud large, long-pointed; flower very large, full, double, extremely lasting, moderately fragrant, pure sunflower yellow, deeper in center, borne singly on long, strong stem. Growth very vigorous, upright; profuse bloomer all season. Very hardy.

Number 1 plants only,
50 cts. each

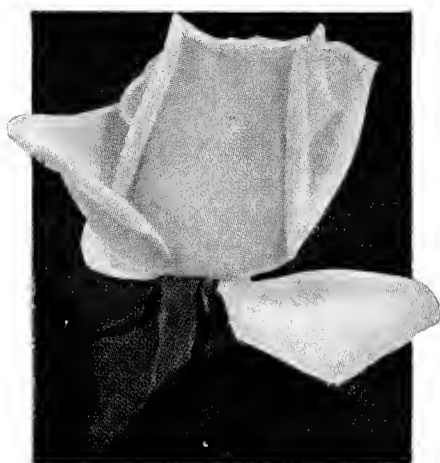

Hoosier Beauty

HYBRID TEA

Introduced in 1915, and winning the Gold Medal of the National Rose Society in 1916.

Bud large, long-pointed; flower large, double, full, lasting, very fragrant, glowing crimson with darker shadings, borne several together on long, strong stem. Growth moderate (15 to 20 inches), bushy; abundant, continuous bloomer all season. Splendid Rose for cutting.

Number 1 plants only,
50 cts. each

Betty

HYBRID TEA

Another Gold Medal winner. Bud large, long-pointed; flower large, semi-double, open, lasting, moderately fragrant, coppery rose, shaded golden yellow, borne singly and several together on long, strong stem; continuous bloomer all season. In habit the plant is upright and of moderate growth; bright red thorns mark the stems and add to the charm of the plant.

Number 1 plants only,
50 cts. each

Frau Karl Druschki

HYBRID PERPETUAL

A white Rose of exquisite beauty. Bud very large, long-pointed, tinted earmine-pink; flower very large, double, open, unusually lasting, snow-white, sometimes light pink blush at center, scentless. The growth is vigorous (about 4 feet), upright; profuse bloomer in May and June, and often has a second blooming season in autumn. Very hardy.

Number 1 plants only,
50 cts. each

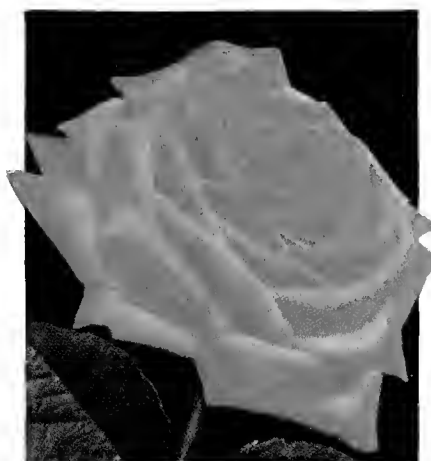

Dame Edith Helen

HYBRID TEA

A winner of several prizes during 1925-26. Bloom very large, full, cupped, lasting, with intense old Rose fragrance, pure glowing pink, borne singly on long, strong stem. Growth vigorous, upright, bushy; profuse, continuous bloomer.

Number 1 plants only,
50 cts. each

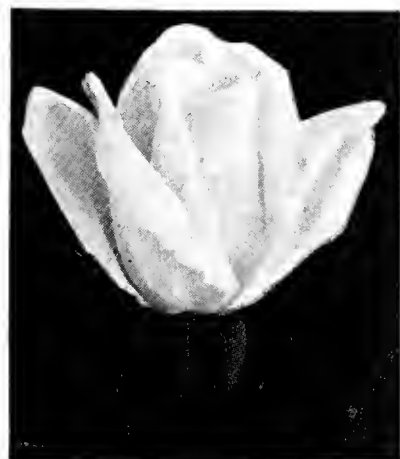

Duchess of Wellington

HYBRID TEA

Bud very large, long-pointed, yellow, marked carmine; flower very large (5 inches across), semi-double, open, moderately fragrant, pale buff-yellow, deeper toward center, with slight tint of pink, many yellow stamens, fades lighter, borne singly and several together on long, strong stem. Growth vigorous (about 2 feet), bushy; free bloomer all season. Hardy.

Number 1 plants only,
50 cts. each

Double White Killarney

HYBRID TEA

For twenty Junes this Rose has filled the gardens of America with beautiful blooms. Its popularity is unabated and you will like it in your garden.

Bud large, long-pointed; flower large, lasting, moderately fragrant, white, borne on stem of average length and strength. Growth vigorous; intermittent bloomer all season from early June to September.

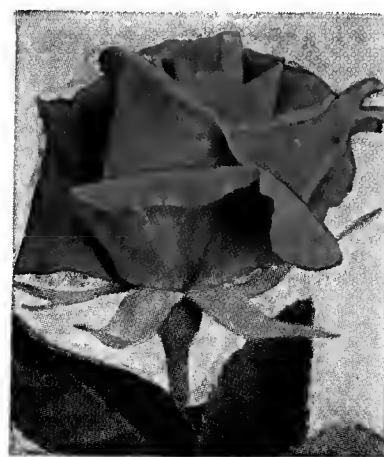

Number 1 plants only,
50 cts. each

Eldorado

HYBRID TEA

Type, Miss Lolita Armour. Bud and flower very large, extremely double, full, lasting, moderately fragrant, copper, suffused orange and salmon, borne singly on long, strong stem. Growth vigorous, bushy; free bloomer.

Number 1 plants only,
50 cts. each

General MacArthur

HYBRID TEA

A red Rose of exquisite beauty. Bud medium size, ovoid, darker than flower; flower medium size, double, open, full, lasting, intensely fragrant, Tyrian rose, borne singly on normal stem. Growth good (18 to 20 inches), upright; moderate, intermittent bloomer all season.

Number 1 plants only,
50 cts. each

Gruss an Teplitz

HYBRID TEA

Every amateur can grow this Rose successfully as single plants or in great masses.

Bud small, ovoid; flower medium size, double, open, lasting, intensely fragrant, dark velvety scarlet, edges of petals sometimes marked dark garnet, borne several together on short stem. Growth very vigorous, upright, bushy; continuous bloomer all season.

Number 1 plants only,
50 cts. each

Francis Scott Key
HYBRID TEA

A score of years have passed since this Rose came into being. It is of rare beauty. Bud very large, globular, red; flower very large, extremely double, full, high-centered, very lasting, slightly fragrant, dark Tyrian pink, reverse of petals lighter, borne singly on long, strong stem. Growth very vigorous, upright; abundant, continuous bloomer all season. One of the finest Roses we have.

Number 1 plants only,
50 cts. each

Mrs. E. P. Thom
HYBRID TEA

Rapidly coming to the front as the foremost yellow Rose.

Bud large, long-pointed; flower large, perfectly shaped, very lasting, moderately fragrant, high-centered, fully double, clear deep canary-yellow without a trace of shading, borne singly on long stem. Growth vigorous, upright; profuse bloomer from June to midsummer.

Number 1 plants only,
50 cts. each

Charles K. Douglas
HYBRID TEA

Bud large, long-pointed; flower large, full, double, fragrant, lasting, flaming scarlet, flushed velvety crimson. Growth vigorous, upright; abundant bloomer all season. Truly a Rose of wonder.

Number 1 plants only,
50 cts. each

Margaret McGredy
HYBRID TEA

The first time in three generations of the house of McGredy that a Rose was thought good enough to be named for a member of that Rose-aristocratic family. Much was expected of Margaret, and she won everywhere with flying colors. Bud very large, long-pointed; flower very large, double, lasting, moderately fragrant, orange-scarlet that does not fade, even in the open flower, borne singly and several together on long, strong stem. Growth vigorous, upright; profuse, continuous bloomer all season.

Number 1 plants only,
50 cts. each

Sunburst
HYBRID TEA

A fine Rose from Pernet-Ducher, the famous French rosarian.

Another Gold Medal winner we have added to our list of wonderful Roses. Bud medium size, long-pointed; flower medium size, double, full, cupped, lasting, cadmium-yellow, passing to yellow-orange in center (color varies). Growth moderate, upright; intermittent bloomer.

Number 1 plants only,
50 cts. each

Etoile de France
HYBRID TEA

Another Rose that is used a great deal for bedding. Bud medium to small, long-pointed; flower medium to small, full, cupped, double (48 petals), lasting, very fragrant, dark velvety rose-red, center vivid cerise, borne singly on long, strong stem. Growth vigorous, upright, bushy; profuse, intermittent bloomer.

Number 1 plants only,
50 cts. each

Killarney Queen

HYBRID TEA

Sport of Killarney. Bud large, long-pointed; flower large, semi-double, open, very lasting, moderately fragrant, Tyrian rose (brighter than Killarney), borne singly and several together on long, strong stem. Growth vigorous (1½ to 2 feet), upright; free, intermittent bloomer all season. Has been a favorite since its introduction in 1912.

Number 1 plants only,
50 cts. each

Etoile de Hollande

HYBRID TEA

One of the most popular red Roses—rich and glowing.

Bud medium size, ovoid; flower small to medium, semi-double (45 petals), full, eupped, lasting, very fragrant (old rose), deep, bright red, borne singly on long, strong stem. Foliage medium size, soft, disease-resistant. Growth moderate (about 32 inches), open, upright; blooms intermittently to August. Hardy.

Number 1 plants only,
50 cts. each

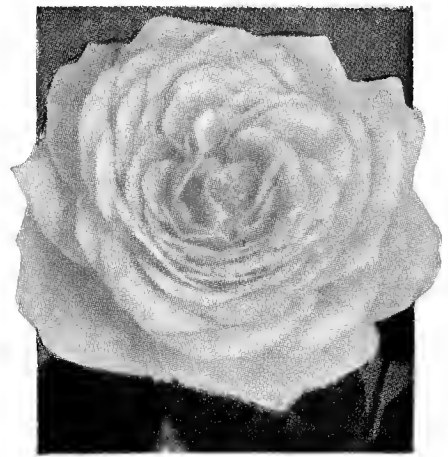

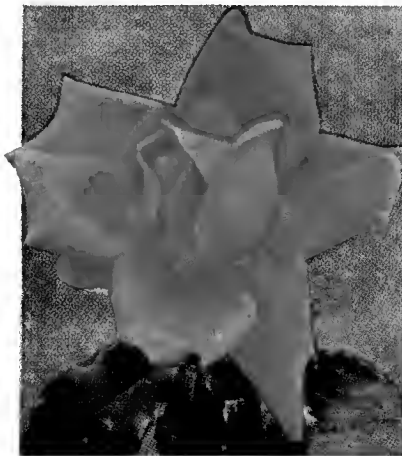

Padre

HYBRID TEA

An English variety that was awarded a Certificate of Merit in 1920 and a Gold Medal in 1921. Shapely flower of good substance, medium size, semi-double, fragrant, bright coppery scarlet, flushed with yellow, borne on long, strong stem. Growth very vigorous, upright; abundant bloomer. Hardy.

Number 1 plants only,
50 cts. each

Lady Alice Stanley

HYBRID TEA

Bud very large, long-pointed; flower very large, double, open, unusually lasting, moderately fragrant, pale flesh-pink, reverse deep coral-rose, borne singly on long, strong stem. Foliage abundant, large, rich green, leathery. Growth vigorous (20 inches), upright; free-branching; free, continuous bloomer all season. Gold Medal, 1908.

Number 1 plants only,
50 cts. each

Kaiserin Auguste Viktoria

HYBRID TEA

Old, yet unfolding new beauties each year, Kaiserin is indeed a Rose of royal blood.

Bud medium size, long-pointed, cream-white; flower medium size, double, full, very lasting, slightly fragrant, snowy white with light lemon tint at center, borne singly on long stem. Growth moderate; intermittent bloomer all season.

Number 1 plants only,
50 cts. each

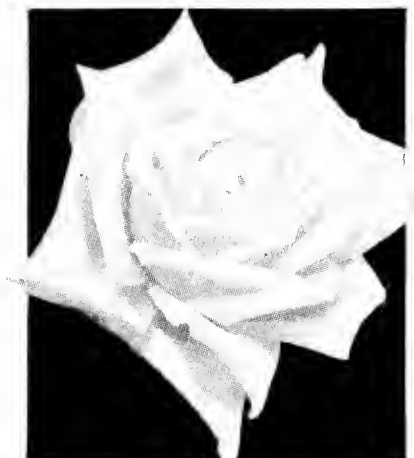

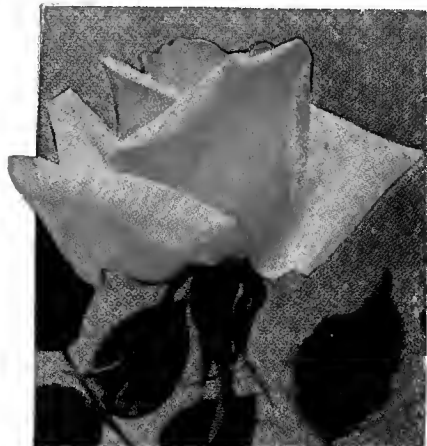

Mrs. Aaron Ward

HYBRID TEA

Bud medium size, long-pointed; flower 3 inches across, double, open, high-centered, lasting, moderately fragrant, Indian yellow, occasionally washed with salmon, borne singly on stem of average length and strength. Growth moderate (2 feet), bushy, compact; free, intermittent bloomer all season. Has been popular for many years and still in great demand.

Number 1 plants only,
50 cts. each

Betty Uprichard

Betty Uprichard

HYBRID TEA

One of the finest, practically new Roses, with brilliant copper-red buds and semi-double, salmon-pink flowers, stained with copper-pink on the outside. A profuse bloomer and one of our outstanding Roses, very lasting, and extremely fragrant. A Gold Medal winner.

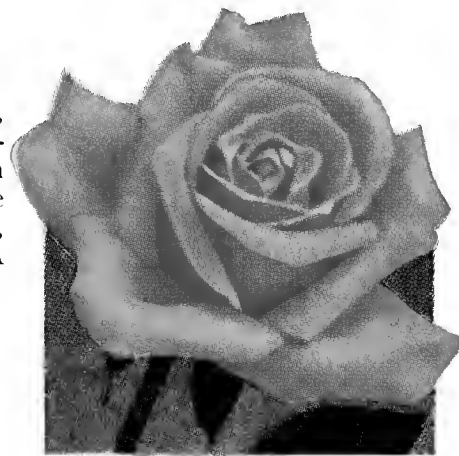

Number 1 plants only, 50 cts. each

Mrs. Calvin Coolidge

HYBRID TEA

Bud medium size, long-pointed; flower medium size, semi-double, very lasting,

moderately fragrant, golden yellow, deepening to rich orange with age, borne several together on long stem. Growth vigorous; profuse, continuous bloomer all season. Number 1 plants only, 50 cts. each.

Mrs. Calvin Coolidge

GLENCO CLIMBING ROSES

BLAZE (Paul's Scarlet Everblooming Climber). Newest of All Monthly Climbers

See color picture on front cover

First introduced during the fall of 1932. Plant patent No. 10. The medium-sized, semi-double, cupped flowers are very lasting, slightly fragrant, and a brilliant scarlet. This very vigorous climber will bloom continuously from early spring to late fall. You are familiar with the Paul's Scarlet Climber—now see the **Everbloomer**. Number 1 plants only, \$2 each.

Scorcher. An Australian introduction that has become a world sensation. Very vigorous and hardy, with handsome vermilion flowers covering the plant in great profusion and a fair repetition in autumn. There is nothing else like it. \$1.50 each.

Mary Wallace. The outstanding, large-flowered pink climber. Very brilliant and invariably satisfactory. Growth is enormous and rapid, and the long-stemmed blooms make good cut-flowers. 50 cts. each.

Emily Gray. A beautiful yellow climber with large, golden buds and blooms that do not fade. The foliage is glossy, pointed, and holly-like. Growth vigorous. 50 cts. each.

Dorothy Perkins. Soft shell-pink. Very hardy and a profuse bloomer. 50 cts. each.

Paul's Scarlet Climber. The most popular red-flowered climber of the day. Flowers large, well formed, vivid red, brighter than Crimson Rambler. Growth moderate. 50 cts. each.

American Beauty. Flower very large, cupped, lasting, fragrant, deep rose-pink, borne several together on long stem. Hangs on when faded. Growth vigorous (12 to 15 feet); abundant bloomer in June. Very hardy. 50 cts. each.

Wichuraiana. Another outstanding beauty. Clusters of starry white flowers. 50 cts. each.

Veilchenblau. The favorite "Blue Rambler." 50 cts. each.

Silver Moon. The favorite white climber. Flower semi-double, very large, with brilliant yellow stamens. Growth even more vigorous than American Pillar. Foliage perfect. 50 cts. each.

Gardenia. One of the strongest growers, with beautiful, glossy foliage. Buds rich creamy yellow and open flowers yellow at first. A very popular yellow climber. 50 cts. each.

Chaplin's Pink Climber. A pink replica of Paul's Scarlet Climber of which it is a seedling. Fairly large flowers in clusters of 8 to 12. It is a clear pink with a tuft of yellow stamens. 50 cts. each.

Max Graf. Large, single, shining pink flowers. Fine for rock-gardens, banks, covering rocks, etc. 50 cts. each.

POLYANTHAS, Baby Ramblers

2-year-old field-grown stock

Mme. Norbert Levavasseur. Crimson. 50 cts. each.

Ellen Poulsen. Bright rose-pink. 50 cts. each.

Triomphe Orleanais. Red. 50 cts. each.

Gardenia

PRIMROSE

New hardy yellow climber, with large, double, canary-yellow flowers in great profusion. Lighter than Primevère and more double. Much hardier than Emily Gray. We believe it is the most satisfactory yellow climbing Rose for the North. It is very new and everyone who has it is enthusiastic over it.

Number 1 plants only, 75 cts. each

THE NEW DAWN

**Everblooming Climber—
Sport of Dr. W. Van Fleet**

Plant patent No. 1. Bud and flower of medium size, double, lasting, slightly fragrant, blush-pink, borne singly and several together on long stem. Foliage sufficient, medium size; climbing, growing from 15 to 20 feet high. Free bloomer all season. Very hardy.

Glenco Mineral Fertilizer

Packed and Guaranteed by
GLENDALÉ DISTRIBUTING COMPANY
(Established 1921)
COOPER AND MYRTLE AVENUES
GLENDALÉ, L. I., N. Y.

We list below descriptions and illustrations of Glenco Mineral Fertilizer in various packages suitable for all requirements.

THE TEN-OUNCE CARDBOARD BOX

This package is used for house plants and small gardens where a large quantity of fertilizer is not required.

The contents of this box will cover sixty square feet of lawn and is sufficient for eight to ten house plants.

THE TEN-OUNCE SIFTER TOP CAN

This can is a great favorite with the small consumer. The sifter top is very convenient and economical, and spreads the fertilizer evenly for house plants, shrubbery, lawns, etc. This is a very attractive package.

THE FIVE-POUND BAG

This bag is used by the large consumer, and in most cases one to two bags will be found sufficient for the average lawn or garden.

Use one bag to each 500 square feet of ground.

GLENCO MINERAL FERTILIZER

— is the most economical fertilizer on the market; each pound will cover one hundred square feet of earth.

— is mined directly from the earth, and contains all the elements necessary for promoting the growth of gardens and lawns.

— is used by many of the largest consumers of fertilizer in the East with wonderful results.

— will produce better lawns, fuller flowers and heartier vegetables by the use of only a small quantity of Glenco.

One does not have to be an expert gardener to use Glenco Mineral Fertilizer, as it is used the same as most fertilizers, only more sparingly. A little goes a long way.

The use of Glenco Mineral Fertilizer eliminates the continued use of fertilizer throughout the summer months. One application during the Spring or Fall is sufficient.

When turning the ground in the Spring, use two pounds of Glenco Mineral Fertilizer to each one hundred square feet of earth and your garden will need no further fertilizer care during the Summer or early Fall season. It will sweeten your ground and produce healthier and fuller plants at all times during the year with one application in the Spring.

The following analysis is plainly printed on each package:

ANALYSIS

Moisture	1.29%
Total Phosphoric Acids.....	4.51%
Available Phosphoric Acids.....	4.21%
Insoluble Phosphoric Acids.....	0.30%
Calcium Oxide	9.60%
Magnesium Oxide	Traces
Nitrogen	2.29%
Equivalent to Ammonia.....	2.79%
Water Soluble Potash.....	0.25%

GLENCO MINERAL FERTILIZER can be sprinkled on the lawn or around shrubbery in even quantities from the sifter-top can.

GLENCO MINERAL FERTILIZER goes twice as far as any other fertilizer, which proves its economy.

GLENCO MINERAL FERTILIZER does twice the work of other grades of fertilizer.

GLENCO MINERAL FERTILIZER will sweeten your ground.

GLENCO MINERAL FERTILIZER has many other advantages too numerous to mention.

GLENCO MINERAL FERTILIZER can be used at any time during the year, preferably in the spring or fall.

All packages show the analysis as printed on page three of this folder, and guaranteed as per specifications by the distributors.

A postal or telephone order to your nearest dealer listed below will bring this wonderful product right to your door.

May we have the pleasure of a trial order from you?

The distributors will gladly give you or any of your friends any further information desired during the year for better lawns and gardens—free of charge.

CLIMBING HYDRANGEA. See description on page 18

Ampelopsis

Clematis paniculata

Clematis Jackmani

Polygonum

Climbing Hydrangea

No vine that we know of has quite the same beauty of foliage or abundance of fragrant, lacy flowers as this charming, refined member of the great and useful Hydrangea family. Its stem is woody and picturesque in winter, clinging tightly to stone and brick work by innumerable aerial roots, hugging a wall like ivy and requiring no tying or trellis.

In June, a lacy mantle of flowers overspreads the whole plant and exhales a dainty fragrance that pervades the whole garden. It forms flat clusters of exquisite daintiness. This is a rare plant which has been the treasured pet of horticultural connoisseurs for many years, and one of the finest specimens in America was the great vine which the late Dr. Sargent, of the Arnold Arboretum, enjoyed and cared for in Boston. We are very proud to be able to offer this wonderful Climbing Hydrangea this year at this low price. See color plate on page 17. \$1.50 each.

Other Climbing Vines

Guaranteed two-year-old plants, each packed in moss in our famous Glenco Carton, ready for planting. Selected stock of the most hardy varieties.

Ampelopsis Veitchi (Boston Ivy). 50 cts. each.
